SYNOPSIS OF FACTS:

JOHN ALBERT BOONE, from whom police confiscated obscene film during raid, claims film and projector left at his tourist home late in July by a colored man who claimed to be JAMES O'NEIL of Washington, D. C. This person left film at tourist home and BOONE claims he has not returned. BOONE has no previous knowledge of O'NEIL but has furnished description. Laboratory advises two reels of the total of eleven reels have not previously come to their attention.

REFERENCE: Laboratory report #D-43670 BE dated October 16, 1945.

DETAILS: AT WASHINGTON, D. C.

Lt. ROY E. BLICK of the Metropolitan Police Department advised the reporting agent that on September 27, 1945, members of his squad had conducted a raid on a colored tourist home located at 1229 Kenilworth Avenue, N. E., where it had been reported that alcoholic liquors were being sold after hours and that gambling was being carried on. During the search of this tourist home, which was operated by JOHN ALBERT BOONE, colored, age 45, the officers found in the attic of the tourist home an Eastman Kodascope, 16 mm projector, model EE, serial number 3445, and eleven reels of film.

Subject BOONE in this case, at the time of his apprehension, in police court denied ownership of the obscene film or the projector and pled

guilty on the charge of sale of alcoholic beverages without a license for which he was fined \$200, and he also pled guilty on charge of operating a disorderly house and received a fine of \$150.

BOONE was interviewed at the Washington Field Office by the reporting agent and by Special Agent JOSEPH LYNCH at which time he claimed that in the latter part of July or early August, 1945, an individual using the name of JAMES O'NEIL came to his tourist home in mid-afternoon, rented a room and stated that he was going back up town in Washington to pick up his wife. O'NEIL stayed in the tourist home for a period of about three days and to the best of BOONE's knowledge was driving an old model black two door sedan, make unknown. BOONE was also unable to recall whether or not the license on this car was issued in Washington, D. C. or in some neighboring state.

After becoming acquainted with BOONE, the subject claimed that he travelled considerably and that he had in his car a motion picture projector and a number of reels of films which he exhibited on various occasions to groups. He finally prevailed upon BOONE to call a gathering of people at which time these photographs were shown. It should be noted that at the time of this showing, there was present at the tourist home a

b7D

It was stated that it was a mixed group present at the showing of the film, all of them being colored people, and Mr. BOONE stated that three girls, who work as waitresses at his home, viewed the pictures. BOONE claims that the subject, JAMES O'NEIL, charged \$2 a piece to see the films but did not charge BOONE or his three female employees. BOONE states that he retired about 11:00 P.M. that night and does not know how long into the night the pictures were shown. BOONE claims that the following day the subject left and stated that he would leave the projector and film at Mr. BOONE's tourist home and return later for them. Subject claimed that at that time he was going to North Carolina and that he expected soon to be called into the army. He stated that if he did not have to go into the army he would be back and in that case would bring more pictures.

Subject O'NEIL, according to BOONE, is described as follows:

Age	25 to 30
Height	5' 7 - 8"
Weight	140 to 150 lbs.
Race	Negro
Complexion	Dark brown skin

Peculiarities
Scars and marks
Marital status

High forehead
None visible
Believed married, although
possible woman living with
him not his wife.
Heavy drinker, usually consumes
whisky.

BOONE claims that should he receive any further information in this case, he will immediately furnish the same to the Washington Field Office. It should be noted that at the time of the interview, BOONE was arranging to sell his tourist home and was then placing it under new management. He advised the reporting agent that he had only received his register book back from the new operators on November 20th and that was the reason he had ^{not} called sooner to give the full name of the individual leaving the film at his tourist home.

The Laboratory in its report dated October 16, 1945, pointed out that of the eleven questioned films, Q1 through Q5 were untitled and that Q6 through Q11 had titles. The Laboratory also pointed out that questioned items 1, 2, 3, 4, 6, 7, 8, 9, and 10 had previously come to the attention of the Bureau and there was set out the office of origin in each case where these films had previously come to the attention of the Bureau. Questioned items #5 and #11 can be described as follows:

#5 is a film depicting a woman intending to have a tea party at which time she was intending to entertain a visiting Hindu. In calling for an entertainment house, it would appear that when she asked for a tea entertainment, the person taking the order mistook her request for a "tease" entertainment and accordingly sent out a group of girls who put on a strip tease act on the edge of a swimming pool during which the girls completely disrobed and entered the pool.

Questioned item #11 is an obscene film entitled The Jailbirds Return, and depicts the return of a colored man from prison where he had been serving a three year sentence for rape. All the participants in this particular film were colored.

In view of the fact that the serial number has been obtained from the motion picture projector ostensibly left by JAMES O'NEIL and presently in custody of the Metropolitan Police Department, a lead is being set out to the Buffalo Field Division to contact Eastman Kodak Company to ascertain the owner of instant projector.

Lt. INTERSTATE TRANSPORTATION OF OBSCENE MATTER.

On April 17, 1952, Inspector ROY E. BLICK of the Vice Squad, Metropolitan Police Department, Washington, D. C., advised that he had come into possession of two letters, which he had received from a [redacted]. These letters were written to an individual not identified by Inspector BLICK, but were signed by the initial, [redacted].

The first letter dated [redacted] was written from [redacted] and indicated that he was desirous of selling the recipient of the letter further photographs and other matter of an obscene nature and set out certain prices for the material. In this letter, the writer stated that he was not sending any material by mail as that was getting too risky, but that if a large enough order would be transmitted, he would send the material by express, which, he said, would be safer. The subject intimated that he was obtaining pictures of Negroes and whites engaged in various sex acts, as well as other photographic type of pictures, and was planning to leave [redacted] and take his camera and other equipment to [redacted] where he felt that he would have considerable success.

The second letter, postmarked [redacted] and written on stationery of the [redacted] stated that he was having pretty good success, and was getting photographic subjects to cooperate with him in [redacted]. He further stated that he had his camera and equipment with him and mentioned that the model he had been using, and which had cost him considerable money to maintain, had left his employ and was now living in the state of [redacted]. The subject, in the letter, stated he figured to stay in [redacted] until about the [redacted] after which he planned to go to [redacted] where he would also engage in the work of photographing such activities.

From the tenor of the letter, it would appear that the subject was living in the [redacted] during the period in question from [redacted] because he suggested that the recipient of the letter might desire to come to [redacted] to pick up some of the material.

It is, accordingly, requested that the [redacted] in an effort to identify this subject, who [redacted]
